EGN 5949 Registration Authorization Form

Effective Summer 2010, students can count a maximum of 3 credits of EGN 5949 toward their degree program. No Credit will be given for part-time internships. Internship credits will count toward the independent study total of a student’s degree program (i.e., Master’s students can only count a maximum of 6 credits of EEL 5905, EEL 6905, and/or EGN 5949 toward their degree program). Students should select a faculty member whose research area is closely related to their internship duties.

To obtain credit toward the degree, each student is required to generate a technical report (2000 word minimum excluding graphs, equations, circuits, and/or computer code). The report must meet IEEE publication guidelines and include the following: title, author’s name, abstract, introduction of the tasks carried out, methodology used, results, discussion, acknowledgements, and references. Confidential material should not be included, but students are expected to include technical details and assessments, equations, graphs, circuits, etc. A copy of the IEEE technical report template can be found on the current graduate student page of the ECE website.

Technical reports are due to the supervising faculty member one week before the last day of classes. The student’s supervisor must submit an Employee Evaluation directly to the SSO before the last day of classes.

Student Information

Name: _____

UFID: _____

Email Address: _____

Semester: _____

Faculty Authorization

Faculty Name (Print): _____

Faculty Signature: _____

Date: _____

Please return completed authorization form along with your Request for Graduate Internship form to the Student Services Office (Larsen 230) to finalize registration.
