Computer Communications
EEL 4598  Section 2240

Class Periods:  T: 10th, 5:10-6:00pm, Th: 10th and 11st, 5:10-7:05pm
Location:  Web
Academic Term:  Fall 2020

Instructor:
Professor Yuguang "Michael" Fang
Email Address: fang@ece.ufl.edu
Office Phone Number: (352) 846-3043
Office Hours:  4:00-5:00pm, T, R or by appointment (online or 435 NEB)

Teaching Assistant/Peer Mentor/Supervised Teaching Student:
Please contact through the Canvas website
- Mr. Xianhao Chen, xianhaochen@ufl.edu, via appointments

Course Description
This course introduces the principles and practice of computer networking, emphasizing data communication and the lower layers of the OSI and TCP/IP protocol architectures. (3 credits)

Course Pre-Requisites / Co-Requisites
EEL 3834, COP 2271 or other programming equivalent, junior or senior level standing

Course Objectives
This course enables students to learn the fundamental concepts, principles and protocol design of computer or communications networks. The students will apply their knowledge of advanced mathematics, basic science and computer engineering to understand and evaluate the performance of communication networks.

These objectives will be achieved through:
1. Intuitive understanding of basic concepts and protocol design via daily life examples.
2. Independent projects on specific topic to gain deeper understanding
3. Simpler problem formulation to evaluate performance of computer or communications networks
4. Understanding basic concepts and techniques and developing skills to solve basic networking problems in practice.

Materials and Supply Fees
None.

Professional Component (ABET):
This course consists of 3 credits of Engineering Science.

Relation to Program Outcomes (ABET):
The table below is an example. Please consult with your department’s ABET coordinator when filling this out.

<table>
<thead>
<tr>
<th>Outcome</th>
<th>Coverage</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics</td>
<td>High</td>
</tr>
<tr>
<td>2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors</td>
<td></td>
</tr>
</tbody>
</table>
3. An ability to communicate effectively with a range of audiences

4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts

5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives

6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions

7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Coverage is given as high, medium, or low. An empty box indicates that this outcome is not covered or assessed in the course.

**Required Textbooks and Software**
- **Title:** Communications Networks: Fundamental Concepts and Key Architectures
- **Authors:** A. Leon-Garcia and I. Widjaja
- **Publication date and edition:** 2003, 2nd edition, McGraw-Hill
- **Remark:** The lecture is based on the textbook, but does not really follow the textbook exactly, and thus any edition would do. However, homework problems are from the 2nd US edition, which may differ from international editions.

**Recommended Materials**
- **Title:** Computer Networks
- **Authors:** A. Tanenbaum
- **Publication date and edition:** any edition after 1st edition (the 2nd edition is in fact better)
- **ISBN number:**
- **Title:** Data & Computer Communications
- **Authors:** W. Stallings
- **Publication date and edition:** any edition, Prentice-Hall
- **ISBN number:**

**Course Schedule**
1. Overview of communications networks and services
2. Layering architectures
3. Physical layer fundamentals: data transmission, coding/decoding, and modulation/demodulation
4. Multiplexing and Switching
5. Data link control: error control and ARQ protocols
6. Multiple access control (MAC) protocols
7. Routing algorithms and protocols

*Course Title, Prefix, and Number*

*Course Instructor and Academic Term*
8. Transport protocols

9. Congestion controls

10. LAN Technologies

**Online Course Recording**

Our class sessions may be audio visually recorded for students in the class to refer back and for enrolled students who are unable to attend live. Students who participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your profile or video image recorded, be sure to keep your camera off and do not use a profile image. Likewise, students who un-mute during class and participate orally are agreeing to have their voices recorded. If you are not willing to consent to have your voice recorded during class, you will need to keep your mute button activated and communicate exclusively using the "chat" feature, which allows students to type questions and comments live. The chat will not be recorded or shared. As in all courses, unauthorized recording and unauthorized sharing of recorded materials is prohibited.

**Attendance Policy, Class Expectations, and Make-Up Policy**

This class will be presented online using Zoom and requires access to a working webcam and stable internet connection. I prefer that students keep their camera on during the class so that I can see you as I would during normal face-to-face classes. Studies show that if we can see each other’s faces then we will have more engagement, more student success, and more faculty success. However, this is not a requirement as the quality of network connection may not allow us to do so (Yes, we could not address this problem during this course, but what you have learned will solve the problem 😃).

Excused absences must be consistent with university policies in the undergraduate catalog (https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx) and require appropriate documentation.

**Evaluation of Grades**

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Total Points</th>
<th>Percentage of Final Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Homework Sets (10)</td>
<td>100 each</td>
<td>10%</td>
</tr>
<tr>
<td>Midterm Exam</td>
<td>100</td>
<td>35%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>100</td>
<td>45%</td>
</tr>
<tr>
<td>Project</td>
<td>100</td>
<td>10%</td>
</tr>
<tr>
<td></td>
<td></td>
<td>100%</td>
</tr>
</tbody>
</table>

Comparing with EEL 5718, undergraduate students will do one fewer problem in each exam.

**Grading Policy**

The grade will be evaluated based on undergraduate population in this class and the final average will be scaled to 100. Those who have attempted non-required problems (those required for the graduate students in EEL 5718) will earn bonus points.

<table>
<thead>
<tr>
<th>Percent</th>
<th>Grade</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>93.4 – 100+</td>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>90.0 - 93.3</td>
<td>A-</td>
<td>3.67</td>
</tr>
<tr>
<td>86.7 - 89.9</td>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>83.4 - 86.6</td>
<td>B</td>
<td>3.00</td>
</tr>
</tbody>
</table>
More information on UF grading policy may be found at: https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx

Students Requiring Accommodations
Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting https://disability.ufl.edu/students/get-started/. It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

Course Evaluation
Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at https://gatorevals.aa.ufl.edu/students/. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via https://ufl.bluera.com/ufl/. Summaries of course evaluation results are available to students at https://gatorevals.aa.ufl.edu/public-results/.

University Honesty Policy
UF students are bound by The Honor Pledge which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment." The Honor Code (https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

Commitment to a Safe and Inclusive Learning Environment
The Herbert Wertheim College of Engineering values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. It is expected that every person in this class will treat one another with dignity and respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture.

If you feel like your performance in class is being impacted by discrimination or harassment of any kind, please contact your instructor or any of the following:
• Your academic advisor or Graduate Program Coordinator
• Robin Bielling, Director of Human Resources, 352-392-0903, rbielling@eng.ufl.edu
• Curtis Taylor, Associate Dean of Student Affairs, 352-392-2177, taylor@eng.ufl.edu
• Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, nishida@eng.ufl.edu

Software Use
All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as
appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

**Student Privacy**
There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: [https://registrar.ufl.edu/ferpa.html](https://registrar.ufl.edu/ferpa.html)

**Campus Resources:**

**Health and Wellness**

<table>
<thead>
<tr>
<th>U Matter, We Care:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact <a href="mailto:umatter@ufl.edu">umatter@ufl.edu</a> so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.</td>
