4 Credits  
Grading Scheme: Letter Grade

Course Pre-Requisites / Co-Requisites  
EEL 3008

Course Objectives  
To present the theoretical and practical background of device physics so that students understand and are able to design and optimize the charge transport properties of semiconductor materials and devices.

Materials and Supply Fees  
The Analog Discovery (DAD) board or National Instruments Analog Discovery (NAD) board is REQUIRED for this course (and many other ECE courses). Board ordering information for the DAD can be found at: http://store.digilentinc.com/analog-discovery-2-100msps-usb-oscilloscope-logic-analyzer-and-variable-power-supply/. Board ordering info about the NAD can be found at http://sine.ni.com/nips/cds/view/p/lang/en/nid/213328. For those who wish to use financial aid or want it right away, the bookstore will be carrying the NAD at a slightly elevated price.

Add'l Course Fees:  $2.75

In addition, students will need to purchase the required electronic components for the labs.

### Online Course Recording
Our class sessions may be audio visually recorded for students in the class to refer back and for enrolled students who are unable to attend live. Students who participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your profile or video image recorded, be sure to keep your camera off and do not use a profile image. Likewise, students who un-mute during class and participate orally are agreeing to have their voices recorded. If you are not willing to consent to have your voice recorded during class, you will need to keep your mute button activated and communicate exclusively using the "chat" feature, which allows students to type questions and comments live. The chat will not be recorded or shared. As in all courses, unauthorized recording and unauthorized sharing of recorded materials is prohibited.

### Attendance Policy, Class Expectations, and Make-Up Policy
This class will be presented online using Zoom and requires access to a working webcam and stable internet connection. I prefer that students keep their camera on during the class so that I can see you as I would during normal face-to-face classes. Studies show that if we can see each other’s faces then we will have more engagement, more student success, and more faculty success. However, this is not a requirement. I understand if on certain days you can’t have your camera on due to internet bandwidth limitations, other family members, health issues, or any other reasons.

Excused absences must be consistent with university policies in the undergraduate catalog (https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx) and require appropriate documentation.
